PROFESSIONAL EXPERIENCE

Data Science and Digital Development intern

Jun 2025 – Aug 2025

University of Tartu

Tartu, Estonia

- Analyzed survey microdata on 16,300 Ukrainian refugees across 6 European countries using machine learning (R/Python) to model early-stage employment outcomes.
- Identified skill-matching and credential recognition failures driving refugee employment into precarious jobs.
- Disseminated findings to both general and academic audiences through a published article in Rus.Postimees and a peer-reviewed paper in the Ukrainian Analytical Digest.
- Built three React-based interactive simulations of civic democracy tools (E-Petitions, Citizens' Assemblies, Participatory Budgeting), now used in graduate-level courses at the University of Tartu.

Financial Aid Office Assistant

Sep 2025 – Dec 2025

Amherst College

Amherst, USA

- Conducted a structured UX audit of a financial literacy platform, delivering a written report with prioritised recommendations across content design, accessibility, and user navigation.
- Facilitated a financial literacy workshop for 30 first-generation students on budgeting, investing, credit, and saving.
- Advised 25+ students weekly on financial aid packages, study abroad transfer procedures, and financial planning tools.

President & Head of Committees

Sep 2022 – Jun 2024

Model European Parliament

Bratislava, Slovakia

- Led a team of 15 to deliver two 4-day international conferences, each hosting 120 participants, managing end-to-end logistics, scheduling, promotion, and cross-functional coordination.
- Secured €10,000+ in sponsorships from private companies, covering 85% of total event costs.
- Chaired policy sessions in Bratislava and Tallinn, guiding international delegations through debate and policy drafting.

Founder and CEO

Sep 2022 – Aug 2024

YES! English School

Tallinn, Estonia; Remote

- Grew the school to 50 students, managed a team of 7 teachers and volunteers across in-person and remote operations, and integrated an AI-driven platform to improve curriculum consistency.
- Achieved a ~2% website conversion rate and \$2.50 cost per student acquisition through A/B-tested online advertising.
- Designed and executed a 5-day residential summer camp in Tallinn and 4 global online speaking clubs

SELECTED PROJECT EXPERIENCE

- **Investment Portfolio Analysis:** Constructed a 50/50 high/low-risk portfolio allocating across defense, commodities, and growth tech, offset by bond ETFs and stable equities to balance long-term appreciation with volatility reduction.
- **Sustainability Indicators Clustering:** Applied k-means clustering to group 100+ countries by energy profiles across 1990 and 2015, providing a benchmarking framework for policymakers targeting clean energy cooperation.
- **Predictive Modeling of Consumer Demand:** Applied logistic regression to 12,330 observations to identify drivers of online purchase likelihood, including visitor behavior, page engagement, and bounce rates.

AWARDS AND CERTIFICATIONS

Charles Hamilton Houston Program Scholar (2025) - awarded funding for an internship in data analysis.

Mount Vernon Student of the Year (2022) - honored for academic excellence and community leadership.
