EDUCATION

AMHERST COLLEGE

BA in Statistics, Economics; GPA 3.86/4.0

Relevant Coursework: Data Science, Statistics, Probability, Communication, Data Structures, Econometrics.

Amherst, MA, USA

2024 – 2028

STOCKHOLM SCHOOL OF ECONOMICS (*Study abroad*)

Relevant Coursework: Behavioral Finance, Economics of European Integration, Psychology of Work.

Stockholm, Sweden

Spring 2026

Technical skills: R, Python, SQL, Stata, Excel, Git, Java, React.js.

Languages: French, Russian, Ukrainian.

Activities: Model United Nations Treasurer, Financial Aid Office Peer Ambassador, CFI Corporate Finance Foundations Professional Certificate.

PROFESSIONAL EXPERIENCE

Amherst College

Amherst, USA

Computer Science Department TA

September 2025 – December 2025

- Facilitated lab sections and office hours, supporting students in Java programming and algorithmic problem-solving.
- Assisted students with tasks on OOP, recursion, and data structures (ArrayLists, stacks, queues, linked lists, and trees).
- Collaborated with fellow TAs to prepare supporting materials for programming assignments.

University of Tartu

Tartu, Estonia

Data Science and Digital Development intern

June 2025 – August 2025

- Analyzed microdata on 16,300 Ukrainian refugees across 6 European countries using regression and machine learning.
- Uncovered systematic skill-matching failures that drive refugee employment into precarious jobs.
- Automated data preprocessing and feature engineering pipelines in R, ensuring reproducibility of quantitative analysis.
- Disseminated findings to non-technical audiences through a published article in *Rus.Postimees* and a manuscript under review in the *Ukrainian Analytical Digest*.

Model European Parliament (MEP)

Bratislava, Slovakia

President & Head of Committees

September 2022 – June 2024

- Led a team of 15 to deliver two 4-day international conferences in Bratislava for 120 participants, managing end-to-end logistics, scheduling, promotion, and cross-functional coordination.
- Secured €10,000+ in sponsorships from private companies, covering 85% of total event costs.
- Chaired policy sessions in Bratislava and Tallinn, guiding international delegations through debate and policy drafting.

YES! English School

Tallinn, Estonia; Remote

Founder

September 2022 – August 2024

- Grew the school to 50 students, managed a team of 7 teachers and volunteers across in-person and remote operations.
- Drove customer acquisition through A/B testing of online advertising strategies.
- Integrated an AI-driven platform to support curriculum delivery and improve teaching consistency.
- Designed and executed a 5-day residential summer camp in Tallinn and 4 global online speaking clubs

Selected Project Experience

- **Investment Portfolio Analysis:** Constructed a 50/50 high/low-risk portfolio allocating across defense, commodities, and growth tech, offset by bond ETFs and stable equities to balance long-term appreciation with volatility reduction.
- **Civic Education Games (React.js):** Built interactive simulations of Citizens' Assemblies, Participatory Budgeting, and E-Petitions, used as a teaching tool across graduate-level courses at the University of Tartu.
- **Sustainability Indicators Clustering:** Applied k-means clustering to group 100+ countries by energy profiles across 1990 and 2015, providing a benchmarking framework for policymakers targeting clean energy cooperation.
- **Predictive Modeling of Consumer Demand:** Applied logistic regression to 12,330 observations to identify drivers of online purchase likelihood, including visitor behavior, page engagement, and bounce rates.

AWARDS AND CERTIFICATIONS

Charles Hamilton Houston Program Scholar (2025) - awarded funding for an internship in data analysis.

Mount Vernon Student of the Year Award (2022) - honored for academic excellence and community leadership.
